

TEKNOSPIRIT SRL

YOUR OUTSTANDING PARTNER

LIKE A RHINO!

Solid, sturdy and headstrong, tough as nails and provided with great strength in work and action.

And yet the rhinoceros are ancient animals, noble and gifted with a certain, rather peculiar, elegance.

Well, all this is TEKNOSPIRIT: a solid, stubborn and **reliable partner**, who knows their job and aware of their distinguished pedigree.

TEKNOSPIRIT want to be the side of their customers with **craftsmanship** and stability, elegance and attention, **creativity** and ... a cumbersome **heritage**.

WHO WE ARE

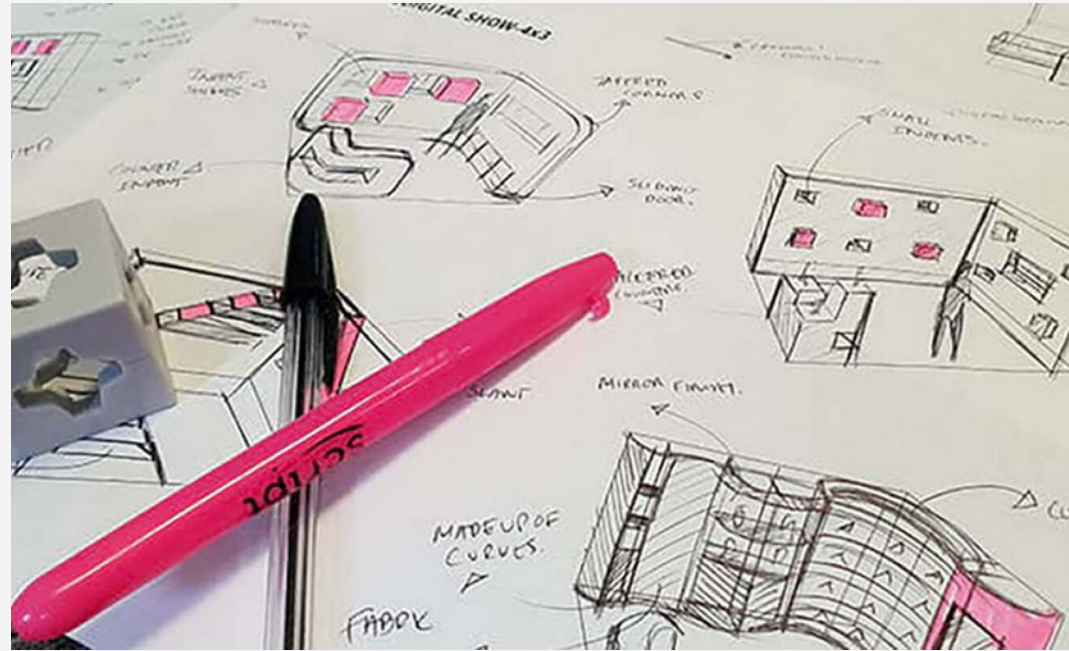

DON'T FORGET THE RHINO

TEKNOSPIRIT was founded in 2020 thanks to the combination of great professional minds with solid experience in the fields of set-ups, event planning and organization and strategic marketing.

Different experiences, different origins, various cultures, a single project: to be the **ideal ally** of our customers.

Reliability, speed, seriousness, attention to intercommunication, commitment, consistency, transparency: these are the values we put in play to achieve **shared and very ambitious goals**.

From the design and set-up of exhibition stands to pop-up stores, from setting up exhibitions and events to showrooms.

And then the realisation of promotional posters, the management of documents concerning the participation to the trade fair, the logistics - from assembly to disassembly, including technical assistance during the event -, the lighting engineering.

Furthermore, we know the most important trade fairs, congresses and museums in **Italy** and in **Europe**. But we can go even further...
